Ok, that's fine. You do what you need to.

Subject: Call Today

Hey! I hate to do this to you last minute, but do you think we could cancel our call for today? I've been helping out with the Gold King Mine response, and don't think I'll have the time to take a call today. If there is something urgent that you need to talk about though, feel free to call my work number – I've got the calls forwarded to my cell.

Thanks so much.
